PROFESSIONAL EXPERIENCE

5 Years

Pitney Bowes – Data Analyst (Growth Marketing & Campaign Analytics); Pune, INDIA *Nov'23- Present*

- Built a **Product Lifecycle Dashboard** for shipping solutions, utilized by the Product, Sales, Client Communications, and Growth Marketing teams to make informed decisions about core product performance and strategy.
- Developed **a classification-based predictive model** to predict customer churn using usage, complaints, and behavioral data, aiding the marketing team in enhancing retention strategies.
- Analyzed cancellation verbatims, extracting **key themes and sentiment insights** using OpenAI API. Designed and implemented a dynamic **sliding window approach** to capture evolving customer concerns over time. The insights were visualized in an interactive dashboard, enabling product managers to identify customer pain points effectively and make data-driven improvements.
- Enhanced Attribution Modelling – Improved the existing **Markov Chain-**based attribution model for **effective budget allocation** across marketing channels.
- Mined, explored, and integrated data from Adobe Analytics, SAP, and Snowflake to create a master data repository, empowering stakeholders to design **targeted growth marketing campaigns.**

Infosys – Analytics Specialist (Technology & Data Analyst); Hyderabad, INDIA *August'17- May'21*

- **Data Analysis & Process Optimization for Insurance Data Insights**
  - Collaborated with downstream teams to analyze and resolve data discrepancies impacting insurance dashboards, ensuring accurate representation of data from raw XML messages.
  - Developed and maintained **ETL processes** using Hadoop, AWS, PySpark, and Shell scripting for seamless data flow. Configured production jobs, ensuring SLA compliance and consistent data quality for business teams.
  - Implemented **classification and clustering algorithms** to analyze Spark, Python, and Snowflake/SQL usage patterns. Created **user personas** for power users on the cloud, improving persona-based access control and resource allocation. - Led to decrease in unauthorized access incident reduction by 20%.
- **Enterprise-level Project Migration to Cloud Services | Cost Optimization & Data Governance Enforcement**
  - Spearheaded Data Ingestion pipeline management, conducted cost modelling for cloud migration, and executed a proof of concept (POC) on AWS/GCP cloud services, **yielding a 20% acceleration in downstream data flow within the target environment.**

TATA Big Basket – Business Intelligence (BI) Intern; Bengaluru, INDIA *April'22- June'22*

- Utilized data-driven insights to assess strategic vendor performance choices, resulting in a **15% boost in profitability from top-performing vendors**, a **25% decrease in vendor turnover**, and an enhanced vendor portfolio.
- **Enhanced feature reduction processes** by extracting daily internal reports and performed statistical modeling techniques like Principal Component Analysis (PCA)/Recursive Feature Elimination (RFE)
- Developed internal dashboard to track the performance of new offerings in the **Quick Commerce segment**, enabling managers to evaluate area-specific launches during the initial phase and make data-driven decisions for further expansion.

EDUCATION

- **MBA - Symbiosis Institute of Business Management (SIBM) Bengaluru** *May'21- April'23*
  Concentrations: Business Analytics | GPA: 8.39 / 10.0
- **Hochschule für Wirtschaft und Recht (HWR) Berlin | International Summer School** *July'22*
  Concentrations: Markets and Management in the Europe; | ECTS: 1.4 / 5.0 (Grade A)
- **B.Tech - West Bengal University of Technology, Kolkata** *May'13-July'17*
  Concentrations: Computer Science & Engineering; | GPA: 8.42 / 10.0

SKILLS & INTERESTS

- **Core Competencies:** Data Analytics Roadmap, Business Intelligence, Statistical Analysis, Predictive Modelling, Data Mining, Data Visualization, Data Validation, Digital Migration
- **Technical Skills:** Machine Learning, Python, SQL, Apache Hadoop, Natural Language Processing (NLP), Data Modelling and Warehousing, Cloud Services AWS/GCP
- **Project Skills**: Project Management, Agile Methodology, Leadership & Communication, Client Handling
- **Tools:** Snowflake, IBM SPSS, Tableau/Power BI, Talend (ETL), GitHub, Jenkins, Gretl, GitLab

AWARDS

- LinkedIn Community badge award for '**Top Data Science Voice**', (April 2024-Present)
- Bagged National Level Hackathons and Business Case Study Competitions (Tier 1 colleges) - **Secured multiple Merit positions**;
- Wipro Business Plan Inter-College Case Competition | **National Semifinalist**, 2022
- Felicitated with **Infosys Data & Analytics (DNA) Star Award** - Most Valuable player and Best Performer Award for the Financial Year 2020

ACADEMIC ACHEIVEMENTS

- Received **Academic Excellence Award - Rank 1** (MBA - Business Analytics Cohort); Nominated in Chancellor's Dean's Merit List (2023)
- Acknowledged as **Student Research Assistant**: Presented Research Paper at International Conference of Marketing (ICM), IIM Bodhgaya (2023)
- Privileged to secure a **Scholarship seat in International Summer School in Berlin**, where presented a case study on "**Digital Automation in the European Market**" and prepared Econometrics models aligning with the macroeconomics of the European Union (2022)
- Indian School of Business (ISB), Bharti Institute of Public Policy (BIPP): Collaborated on the **Indian Data Portal (IDP) project**, supported by the Bill & Melinda Gates Foundation. (2022)
- **SIBM Toastmasters International**: Held position of responsibility as Additional Vice President (AVP)- Public Relations (2022-23)
